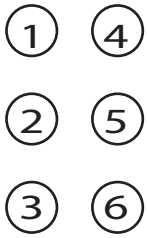
Braille Writing Guide For the Sighted

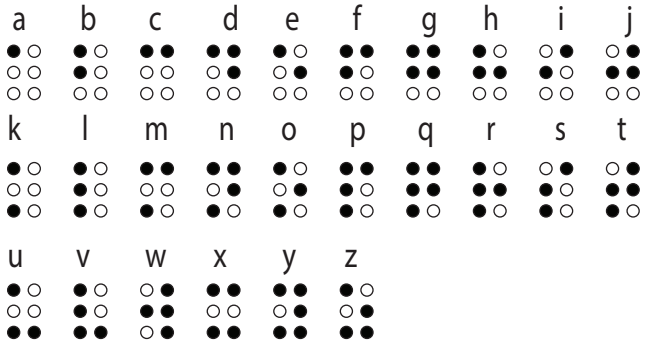
Braille Cell



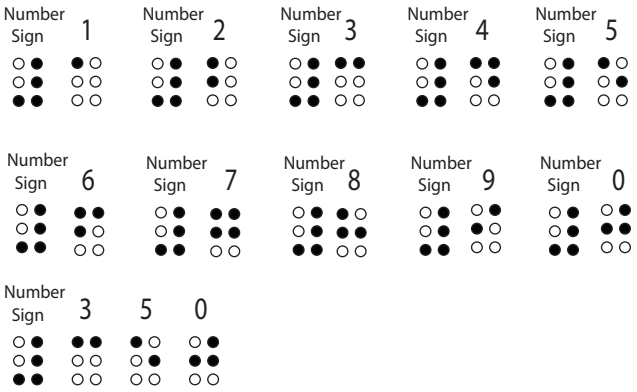
Writing Braille:

1. Find the braille symbols for letters or numbers or punctuation and write like you would with English writing but within Braille Cells.
2. F ind the placement of your braille writing and place it in your braille slate
3. Reverse the page copying the placement you made.
4. Always write on the far right side of the braille slate.
5. When writing braille swap the column 1,2,3 with column 4,5,6 to make the dots indent in the correct positions when reversed.
6. Use your Braille pin or a blunted pencil and press into the holes to write out what you like.

Braille Alphabet



Braille Numbers



Some Punctuation and Numbers rules for Braille:

1. Capitalization sign: Dot 6. (Before the letter or word you are capitalizing.)
2. Number sign : Dots 3,4,5,6. (Before the numbers you are writing.)
3. Full stop : Dots 2,5,6.
4. Question mark : Dots 2,3,6.
5. Exclamation Mark: Dots 2,3,5.
6. Comma: Dot 2.
